

Although it's out a bit later than I intended, you've now got the 2003 MGCC Calendar. You'll see that this year the pictures depict some of the cars of our club in both their before and after state. This came about after I heard someone at a car show mention that they thought there probably weren't any cars in this kind of shape left to be found. I realized that the person didn't know what the shape of most of the cars were in when we found them!

Most of the cars included were pretty much at the very end, if not past the end, of a drivable condition, but as you'll see they were all brought very much back to life.
